Dear GIDP Advisory Council,

Please find enclosed my application packet for the Carter Interdisciplinary Fellowship. I enclose one original and five copies of the following:

Cover sheet  
Commentary on unfamiliar undergraduate transcript  
Undergraduate transcript  
Masters' transcript  
Graduate transcript  
Two page biographical sketch  
Two page personal statement

I also enclose three letters of recommendation. The first is from my academic advisor, S. W. Bougher. The second is from another professor, H. J. Melosh, in my department whom I have taken classes from and worked on research projects with. The third is from a research scientist at NASA's Goddard Space Flight Center, G. A. Neumann. I spent last summer on a research placement with Dr. Neumann. Jolene Gruener informed me that, despite not being affiliated with the University of Arizona, Dr. Neumann would be a satisfactory referee.

Please email me (withers@lpl.arizona.edu) if you have queries regarding my application.

Yours,

Paul Withers
