

Mid-term exam (Monday June 12th)

Start: 9.30 am

End: 11.00 am

Official clock on the wall

Supplies

- You bring:
 - Pen
 - Another pen
 - Calculator
 - Ruler
- I provide:
 - Paper
 - Useful equations, units, and molecules (from the syllabus)

Seating

- Sit in your assigned seat
- Leave bags and their contents at front of class
- If you have a question, raise your hand and wait
- If I don't see your hand, cough loudly
- If you finish early, stand up, hand in your exam, leave quietly

What's covered?

- Chapters 1-8 in textbook
- Things you've learnt about in classroom
- Good things to study include:
 - Summaries at end of each chapter in book
 - 1 page handouts for each chapter

Types of questions

- Multiple choice questions
 - Questions with one or two word answers
 - Questions that want a longer answer
 - Calculation/Equation
-
- Points for each question and each section will be stated on the exam
